

Review of Orchard Gathering 2014 Visioning

Analysis prepared by Crispin W. Hayes

Gathering 2014 partner: Orchard Research & Enterprise CIC

Why review this now ?

- Gathering 2014 produced a lot of 'stuff'
- that raw stuff is transcribed to: <http://orchardgathering.weebly.com/>
- along with video & slides, etc

However - we didn't have time to:

- properly group that stuff into emergent themes
- share & discuss those themes

Emergent Theme Tags

What is our shared vision for orchards?

Orchards of all different sizes in different contexts that help provide access to all - including building of links between producers & consumers. A Scotland that produces all of the apples it eats.

How many years till the vision bears fruit?

but ongoing 20yrs

So for this comment:

- diverse orchards
- access
- local food
- markets
- Scotland
- self-sufficiency

wanting to ensure that this analysis has transparency & trust

Discussion – Our Response to Vision

- 10 mins discussion by table
- 10 mins feedback to whole meeting
- Responses recorded on mindmap (below)

Response to Vision Themes

This isn't the end of the discussion - we'll put these slides up on <http://orchardgathering.weebly.com/> to continue the discussion
